**Oak Village Owner: Tim Neuberger - Landscape Man**  
Spotlight by Linda Bricco Schalk ~ founder of DOTR

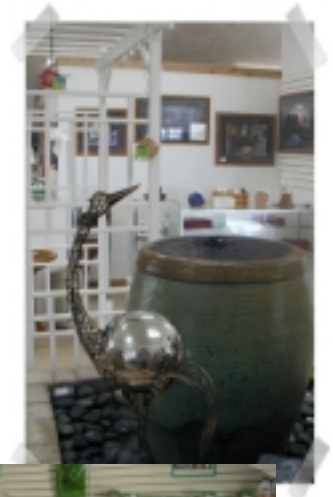

Back in 1983, three people decided it would be fun to make a living playing in the dirt. **Oak Village Garden** was born! Today, of the three, Tim is the one still playing with trucks, tractors and rocks, still having fun helping people see the possibilities in the ground surrounding their homes and businesses.

**Oak Village** has always been located between Janesville and Milton on Hwy 26 but in 1996, Tim expanded next to the original location adding greenhouses, ponds and 3 acres of nursery stock.

His expert staff loves to help you select the perfect evergreens, trees, shrubs, annuals, perennials, garden supplies, landscape stones, retaining wall block, brick pavers, pond and landscape supplies.

Terrific gifts for you and your gardening friends, garden furniture, fountains, urns and supplies, plus Teleflora services... make Oak Village the perfect stop for everything gardening.

**Oak Village** also offers a complete landscape division; with design for installation and maintenance services for any budget and everything for the Do-It-Yourselfer!
